WHO WE ARE

Established in 1985 to increase self-esteem in young people through theatre, our Musical Theatre Workshops are designed to build self-confidence, character, friendships and skills in an environment of acceptance, encouragement and FUN. Participants receive training in acting, singing, and dancing from experienced professionals who believe that nothing is more important than empowering young people to respect and appreciate themselves and others. Each workshop culminates with full-scale productions complete with professional lighting, sound, sets, and costumes. All roles are played by children and no prior training or experience is necessary to participate. Every enrollee is guaranteed a part. The entire GPAC staff strives to provide an unforgettable, positive experience for every participant and to maintain a warm, nurturing, accepting environment wherein shy or withdrawn children blossom, and creative and expressive children thrive! The main concern, always, is to instill in each child feelings of personal worth, self-esteem and confidence while exposing them to exhilarating feelings of success, belonging, pride and accomplishment.
