# HOW TO SAFELY SEND YOUR STUDENT TO SCHOOL

Respiratory viruses are easily spread to others. Right now, many viruses are spreading that lead to sniffles, sneezing and coughing. The following are additional steps families and students can take to lower the spread of respiratory illness in schools.

**WHEN SHOULD STUDENTS STAY HOME?**  
If they are feeling sick with the following symptoms:

**Fever 100.4 degrees Fahrenheit or above**      **Cough/congestion**

## School Absence Verification

It is the parent's/legal guardian's responsibility to provide documentation to verify the reason(s) for absence within **10 school days** after the student returns to school in order to prevent absences from being recorded as unexcused/unexcused and counting towards truancy. For more information refer to the [Parent Student Handbook 2022-2023](#).

For all absences, please be sure to notify the school of the reason(s) for absence(s). Absence Notification Templates are available here:  
[Elementary Absence Note Template](#)  
[Secondary Absence Note Template](#)
