

News from the Computer Lab

Welcome to the Computerwisekids Program. Our program has a unique way of teaching technology skills to young kids. The students will be working on a variety of programs and apps to create reports, presentations, graphs, movies, coding and more. Besides projects the students will learn keyboarding skills and online safety skills too.

Logon to the website: <http://www.cwksmarts.com/portal.php> to practice typing skills or message a friend from your grade level

Grade Level	Grade Key	Password
Kindergarten	mix	mix
Grade 1	nice	nice
Grade 2	sugar	sugar
Grade 3	cookie	
Grade 4	baker	
Grade 5	pastry	

Player App (Grades TK & K) We have designed this app to teach young students (who do not read) how to successfully navigate the computer, the web and learn functions of the mouse, keyboard or commonly used icon buttons. The Player App guides the students through a series of exercises that progressively advance the student's skills each week. The Player App is icon driven, and has buttons such as: HOME, SAVE, PRINT, REPLAY.

Online Typing Tutor (GR K & Up): Students can login and learn & practice typing lessons. The tutor keeps track of accuracy and speed. Login 2-3 times a week and practice, practice, practice to improve your typing speed and accuracy.
